

- | | |
|--------------------------------|---|
| Custom designed | All we need is your stand area and requirements and we'll design a stand for you |
| Vary design layout | You can add or remove sections or change stand or graphic layout |
| Lightweight for transportation | T3 weighs considerably less than traditional wooden stands, and can be transported by car |
| Special product displays | Create any type of structure to support products on framework |
| No specialist labour | Easy to construct no need for joiners and painters to build your stand |
| No tools needed | All parts lock together by twisting the bars eliminating the need for screws or bolts |
| Limitless size | You can add extra components to make any size stand |
| Extra features | Add TVs, projector screens, shelves, doors, tables etc. |

T3 Airframe stand measuring 6m x 3m with illuminated shelves and corner desk

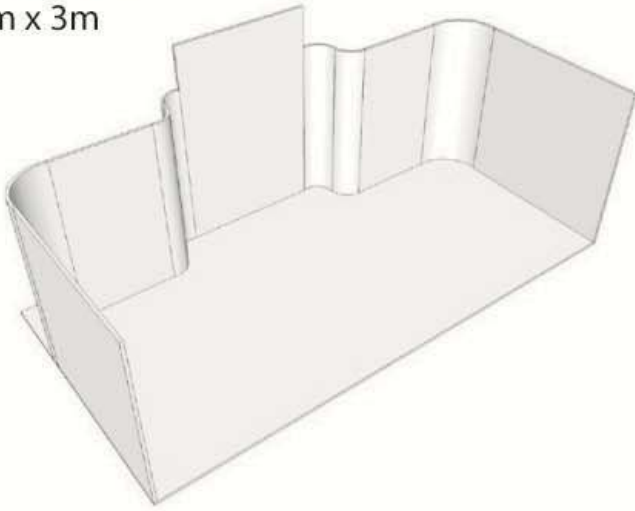

Assembly sequence

A 2m x 3m stand with storage area behind graphics

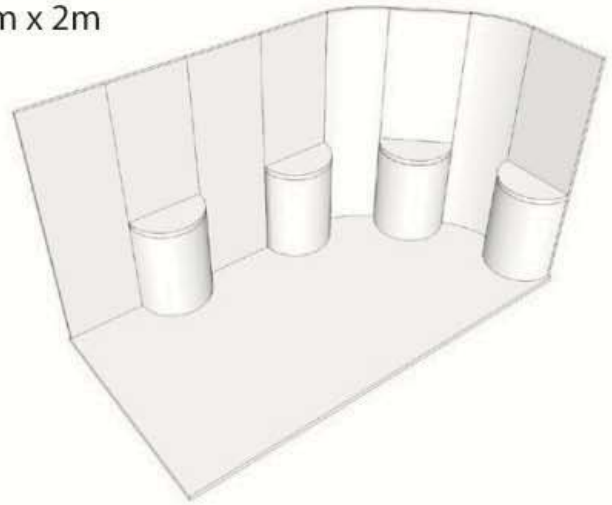

Example 1

6m x 3m

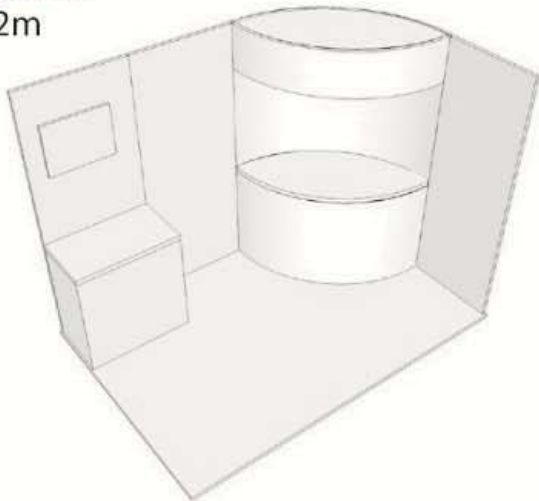

Example 2

4m x 2m

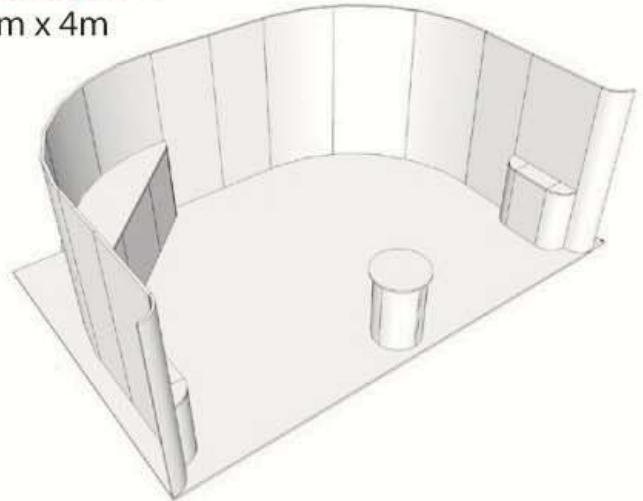

Example 3

3m x 2m

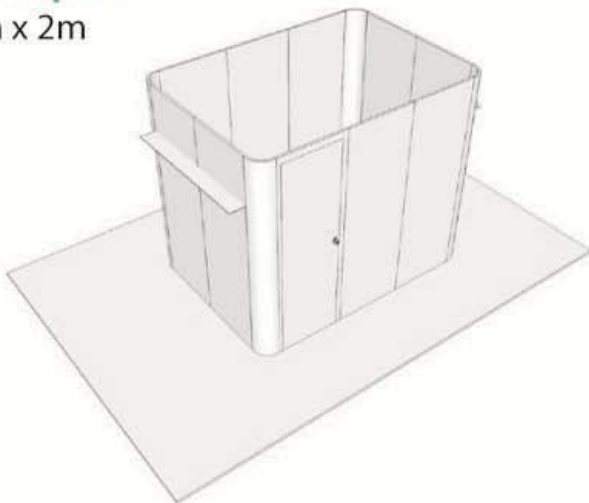

Example 4

6m x 4m

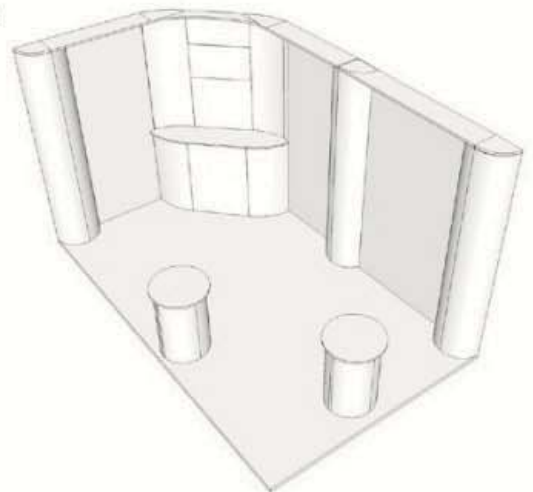

Example 5

3m x 2m

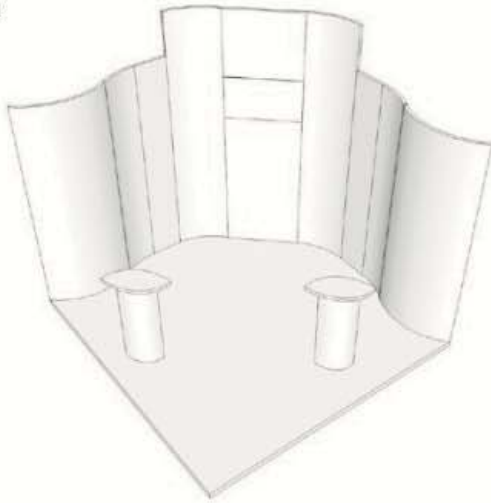

Example 6

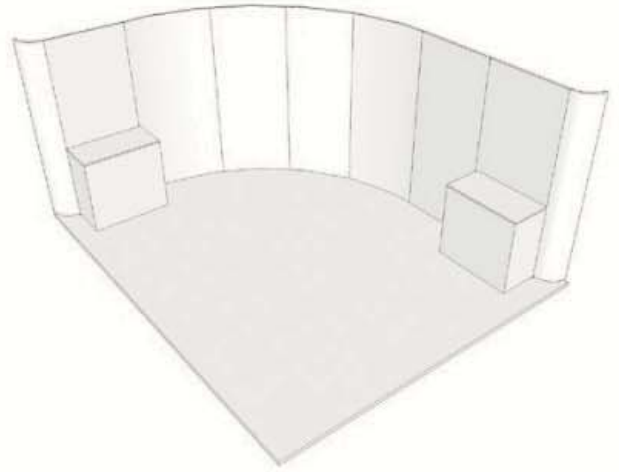

5m x 3m

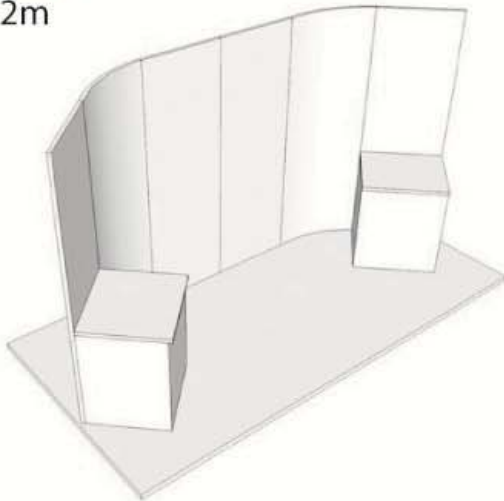

Example 7
3x 3m

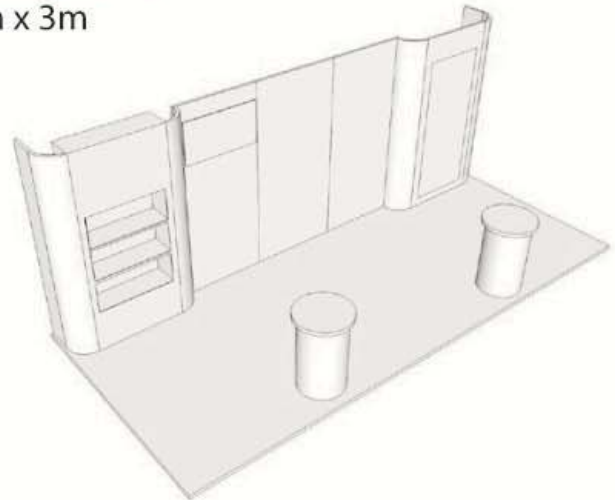

Example 8
5m x 4m

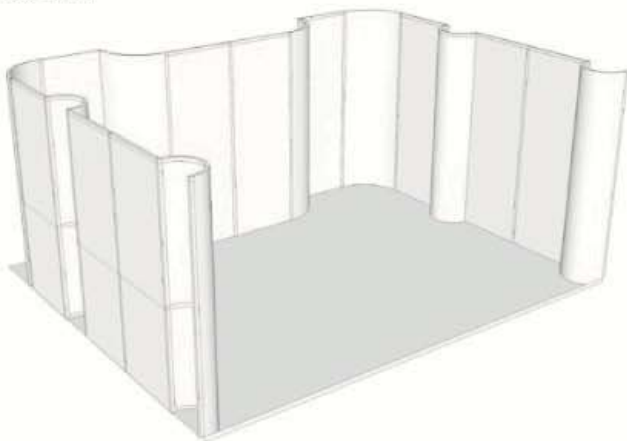

Example 9
4m x 2m

Example 10
6m x 3m

Example 11
5m x 4m

Example 12
5m x 3m
